

Managing Carbon Footprint

Shortly before Earth Day (22 April 2007) and televised on 20 April 2007, Innovation Environment participated in the Programme which focussed on climate change and the preparedness some socially responsible companies are undergoing for the future. During 2007, the programme can be viewed at <http://www.rthk.org.hk/rthk/tv/thepulse/20070420.html>

For copy of Innovation Environment's full briefing to Radio Television Hong Kong The Pulse programme on Zero Carbon Footprint, contact us:

Jonathan Pyke on +852 2868 6055, hongkong@innoenviron.com ; or,

Paul Chu on +862 9 8822 0021, xian@innoenviron.com

The article discusses global warming in the context of civilisations and industrialisation, Hong Kong today, local solutions to global warming problems, corporate social responsibility for climate change, financial and architectural solutions to climate change and the World Bank's mission to improve people's quality of life and improving the prospects for and the quality of growth protecting the quality of the regional and global environmental commons .
